<b>C. BIDANG PENYELIDIKAN (RESEARCH AREA)</b>
<p><i>I have great interest in the field of educational philosophy and I believe that philosophy is an important aspect in every great civilization. My main interest is in the philosophy of human relationships, in particular, relationships that acknowledge the subjectivity of human being. My PhD dissertation was on the theory of human relationship from the teachings of Jalaluddin Rumi and Martin Buber. I believe that the relationship between two individuals is the basic unit of a society. This is also an important philosophy in qualitative inquiry of social science where the researcher and the one being studied are both subjective human beings.</i></p>
